Title

Period parameter with "allow OR" cannot be used anymore

Summary

From SP14, the period parameter with "allow OR" option cannot be used anymore and a warning pops up ("The period parameter with allow OR option enabled is not supported").

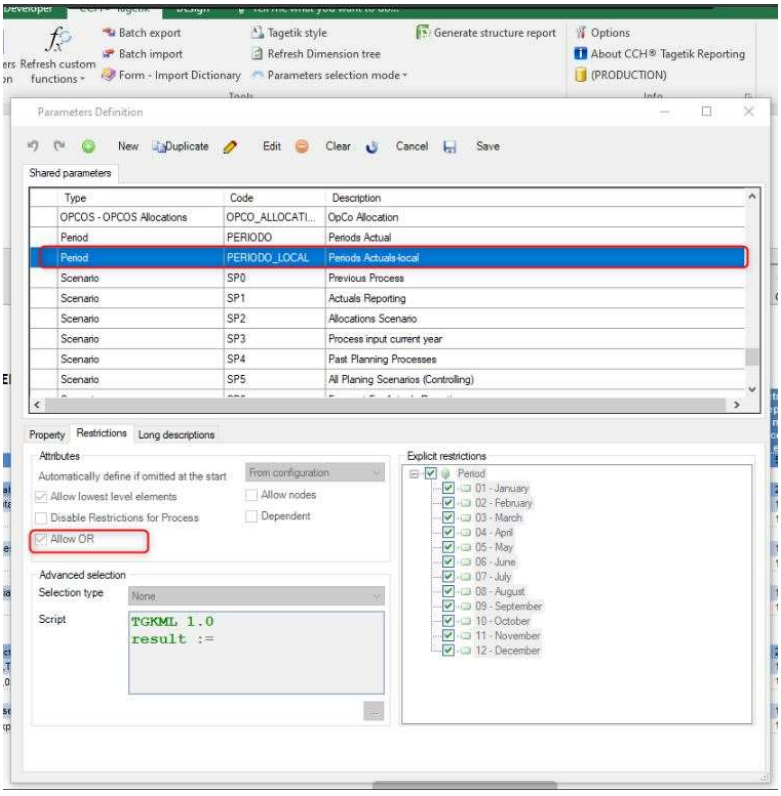

From Version

SP14

Up to Version

Description

The "allow OR" option in the period parameter gave the possibility to select more than one period when opening a report, as shown below:

From SP14 this option is not available anymore. For all the forms created before SP14, the warning below pops up:

Solution

The solution is to modify all the forms having this parameter set with the "Allow OR" option.
To obtain something similar, you may use a formula (adding up the periods you need) or select the correct period length.
