
System Administratio
Morning
Introduction
This training is about the Repository Database
Explain Differences Application DB / Repository DB
User Management
Demo: create a User
Slides 9, 10
Workshop 1
Other User Management Topics
User Deletion
Reference & Profile User
User Roles
Predefines User Roles
Concept of User Roles
Workshop 2
Licenses
Licenses Concept
Demo: Show License Report
Workshop 3
Tipps and Recommendations about licenses
Setting
Demo: General Settings tile
Demo: Database List
Demo: Data Processing
Afternoon
Master Data Management
Import Export tool
Demo: show Import Export tile
Workshop 4
MDM
Demo: Create a routine, add more application to your user
Workshop 5
Different tools
Export/Import requires Files
ETL not a explained in this course: visit ETL Foundation
Master Data Management: for Metadata, only
DB Server Backup. Backup of Tagetik Data tables outside of Tagetik (Doesn't work for Cloud Customers)
Audit Log
Overview: Different kinds of Audit tools
Monitoring
Demo: Show Monitoring tile, Connected Users, Log Levels, Server Status
Audit
Demo: look for error messages within the System or provocate an error message by re-login with wrong password
Show Detailed Log
Workshop 66
Utilities & Tools
Remaining tiles
Tagetik Service
Agents Monitor
Endpoint
Scheduler
Workshop 7
Query Analyzer
Workshop 8 (Application DB!)
Optional
Utilities & Tools
AIH MDM (visit AIH Basic course)
External Authentication (Single Sign On
Update Prod System with Dev Metadata
Do's & Don'ts
Boost Performance or simplify maintenance
Best Practices Tipps for maintenance
